ABOUT ME

I am a self-taught technology enthusiast with a strong interest in cybersecurity, software development, artificial intelligence, and digital innovation. My journey into technology has been driven by curiosity, continuous learning, and hands-on project experience. Over the years, I have developed and deployed more than 30 live web projects and gained practical experience supporting cybersecurity-related activities in an international remote work environment. I enjoy solving problems, learning new technologies, and turning ideas into practical solutions. My goal is to continue growing as a technology professional while contributing to innovative projects that create meaningful impact.
